

M-PACT®

IMPACT RESISTANT HAND PROTECTION

The M-Pact® delivers full-coverage hand protection with a sonic welded Thermal Plastic Rubber (TPR) knuckle guard and dedicated finger guards that shield the top of your hand from unexpected impact and abrasion injuries. The dual-layer internal fingertip construction reinforces high wear areas of the thumb and index finger for improved abrasion resistance, while the embossed and textured fingertip pattern provides grip where you need it most. For comfort, we incorporated high-impact XRD® padding in the palm to reduce shock and vibration associated with hand tools.

KNUCKLE GUARD

Impact Guard™ frees the index finger and molded Thermal Plastic Rubber (TPR) disperses impact and abrasion.

REINFORCED FINGERTIPS

Dual-layer internal fingertip construction reinforces the index finger and thumb.

M-PACT®

AVAILABLE COLORS
