

# M-PACT<sup>®</sup> 2

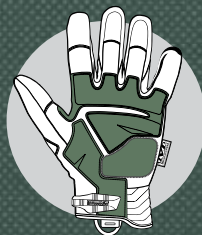

## TACTICAL HAND PROTECTION

Service members understand the importance of having the right tools for the mission. The M-Pact<sup>®</sup> 2 safeguards your hands from impact injuries with a flexible accordion knuckle and Thermal Plastic Rubber (TPR) finger guards that create a barrier between your hands and the unexpected. For easy trigger access and equipment handling, we left your index finger free from TPR to improve trigger finger mobility. High wear areas of the palm are reinforced and padded with XRD<sup>®</sup> performance cushioning to reduce hand fatigue in the field and a molded Neoprene cuff provides a seamless fit to the wrist.

### KNUCKLE GUARD

Accordion knuckle with EVA foam padding absorbs impact.

### IMPACT PALM

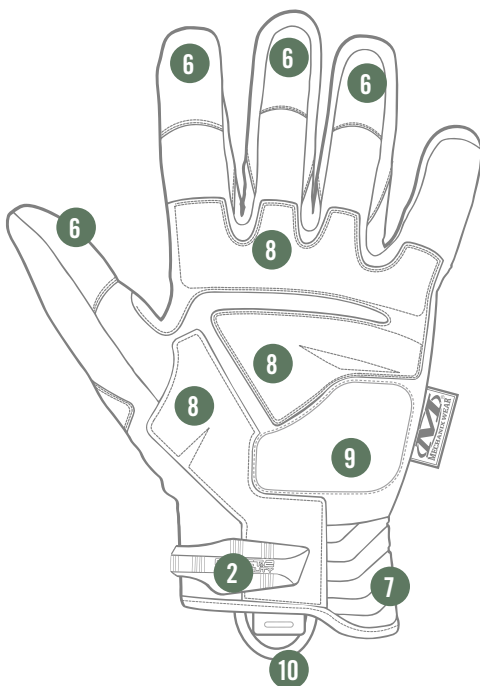

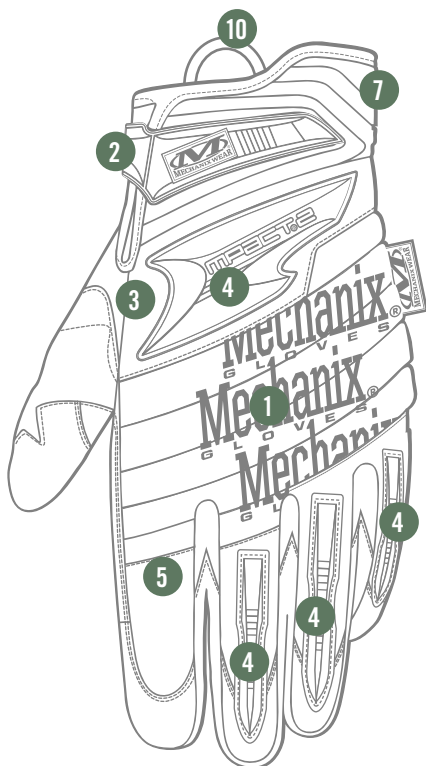

Reinforced and padded with XRD<sup>®</sup> performance cushioning.
